

Our Forester Future

STRATEGIC FRAMEWORK

2023-2028

FORESTERS • RESOURCES • PARTNERSHIPS

Strategic Framework Components

We seek to secure and sustain a vibrant critical mass of students by standing out in market-relevant ways and demonstrating unparalleled effectiveness and alignment in how we support the student experience. The ways we will achieve this aspiration are organized around three elements: our Foresters, our resources, and our partners.

Our Forester community provides a distinctive, transformational experience for each of our students.

Expand and align institutional resources that enhance the student experience and maximize the engagement and talent of our faculty and staff.

Grow and fully leverage relationships with external stakeholders and partners.

LAKE FOREST
COLLEGE
